LUXURY CARAVANS FOR YOUR ADVENTURES

100% Australian Made

5 Year Structural Warranty
3 Year Manufacturers Warranty

Discover the JB difference: A luxury lifestyle, exploring this beautiful country, in the comfort of your own caravan!

FROM OUR HUMBLE BEGINNINGS IN 2010 THE JB STORY

At JB Caravans, we proudly manufacture every aspect of our caravans in our state-of-the-art facility in Campbellfield, right here in Australia. This allows us to deliver exceptional quality while keeping our products affordable. We take pride in listening to our fellow Australians and understanding their vision for modern caravans, constantly improving our processes and staying ahead with the latest construction methods.

We're excited about expanding our Australian facilities and product offerings by investing in advanced machinery and technology. We've grown to offer some of the highest-quality caravans in the Australian caravan industry.

Our team is highly skilled, with years of experience in caravan manufacturing. Each caravan is carefully assembled piece by piece, ensuring strict quality control at every stage. For example, at the chassis stage, our trained workers follow stringent guidelines to ensure every component is installed perfectly, giving our customers peace of mind and confidence in our products.

We're also deeply committed to our Australian community, and our passion for the industry drives us to create caravans that are durable, reliable, and affordable. With every design and component produced in-house, we ensure that your safety and satisfaction are always our top priorities.

Due to logistics and product availability, items and technical specs in this brochure can be changed without notice, weights can vary in caravans given customised setups. Please check with your local Dealership for the most up to date information. Edition 2 Feb 2025.

OPTIONAL UPGRADES

These are some of the most popular upgrades people choose to customise their luxury JB Caravan. Speak to your sales person for a full run down on ways to customise your pride and joy.

EcoFlow Upgrade. Upgrade your system from 5 to 10 or even a 15kW system. Offering a massive 1,250 amp hours. These are a simple plug and play

Dust Reduction Systems. Minimises the amount of dust, harmful airborne particles and pollens that can enter your caravan and remain suspended in the air.

GripSport Bike Rack. Built tough and can fit almost every caravan or camper-trailer, and its innovative design allows you to quickly and easily swap it over to your vehicle tow bar.

Dometic Slideout Kitchen. A must for every RV, functions as a 3-burner cooktop, sink and benchtop. It also features a large amount of built-in dual side storage to keep dining and cooking equipment secure.

Diesel or Gas Heater. Add a high performance compact, sleek and lightweight heater. It is a very efficient heater and will heat your caravan to the required temperature in a very short period of time.

Toolboxes. Choose a toolbox configuration that works best for you. Allowing for cooking, refrigeration or storage options.

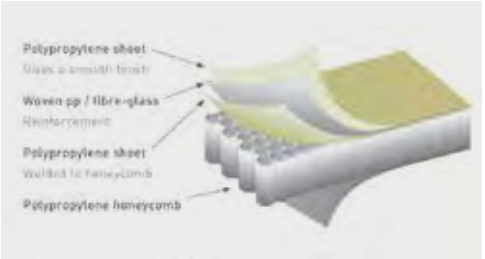

Sirocco Fans. The all new Sirocco II fan can be mounted to any surface with the gimbaled design enabling airflow to be moved in any direction. Available in Black or White.

Suspension System. Upgrade your suspension to perfectly fit for you travel requirements. Speak to your sales person about the available upgrade options for your model.

Due to logistics and product availability, items and technical specifications in this brochure can be changed without notice, please check with your local Dealership for the most up to date information. Edition 2 Feb 2025. Please note that colours depicted in this brochure are for illustrative purposes only and may vary due to printing processes or screen settings. Colour options are subject to availability at the time of production and may differ from those shown. Additional colours may be available—please consult your local dealership for the most up-to-date options and to explore our full range of customisation choices.

NO TIMBER CONSTRUCTION DETAILS

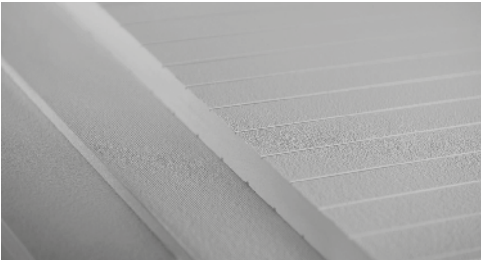

One piece Honeycomb Floor. Advanced one-piece seamless flooring solution that is up to 40% lighter than standard 12mm plywood yet much tougher,

One Piece Roof. Ensuring strength required, whilst preventing distortion of roof in offroad conditions.

Polyresin Composite walls. Wall framing / inner skin is constructed of a polyresin composite. PRC is a water and humidity resistant product which will withstand Australia's varied weather conditions

Insulation. XPS manufactures in a continuous extrusion process that's a closed cell form, improving the insulation rating & acoustic properties.

We have innovated the construction methods and materials used in our range of caravans, to give you the option of a no timber build

- Using industry leading technologies, we have achieved the perfect mix of;
- Once-piece Sandwich Panel roof construction
 - One piece honeycomb floor construction
 - Polyresin composite wall frame construction
 - XPS insulation provides a closed cell form, improving the insulation rating and acoustics
 - Polyresin 3mm innerwall material
 - Australian made with Supergal Steel chassis
 - All this technology is providing you with; no timber, polyresin composite frame & wall and honeycomb floor construction

These technologies offer the forgiveness and flex required in full offroad, whilst maintaining the build strength that is required for our tough Australian conditions. Investing in R&D we have used new machinery, materials and processes, to bring you a tough offroad caravan. We have also future proofed this caravan building method by allowing easy access to important building areas of the caravan, for future updates, or customising alterations where possible.

Once Piece roof construction

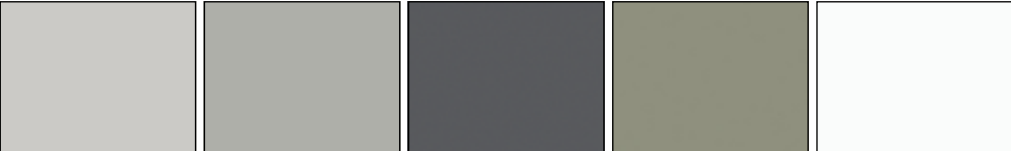

- One Piece roof design that ensures strength and prevents distortion of roof whilst providing accessibility for future upgrades or customising.
- The strength integrity of the roof line is maintained through key stress supports.

COLOUR OPTIONS FOR YOU

Choosing the perfect colour combinations for your dream caravan can elevate its style and make it truly your own. Whether you prefer classic neutrals, bold modern tones, or earthy shades that blend with nature, there's something for every taste. These top five options in each category are just the beginning - visit your local dealership to explore the full range and discover the palette that reflects your style and adventures.
